

## EXPORT LICENSE FORM FRM-1008

### Overview:

Export licenses may be required for certain products or entities. Please refer to AP Tech export license training presentations for an explanation of export regulations and when a license is required. If an export license is required, AP Tech cannot accept an order for product to be shipped prior to an export license being granted.

It is AP Tech's responsibility to apply for a license for shipments from the factory and to assist with any other required licenses.

The following information must be provided to enable an export license application to be submitted. The time for the US Bureau of Industry and Security (BIS) to review a license application is from a few weeks to a few months.

### Application required information:

Form allows typing in text or printing to write by hand. **English only please.**

**Purchaser:** Company name, address and phone number of company purchasing the products directly from AP Tech.
