Precise temperature control. Globally – For you.

LASER World of PHOTONICS 2022
26 – 29 April, Munich Exhibition Centre
Hall A5, Booth 259

Welcome to the **LASER World of PHOTONICS 2022**

26 to 29 April

At the LASER World of PHOTONICS 2022, SMC will showcase the latest industry technology in temperature control via a range thermo-chiller, as well as breakthrough laser application automation concepts.

SMC is the leading manufacturer, partner and solution provider for pneumatic and electrical automation technology. For more than 30 years, we have been consolidating our expertise for applications in heat-generating industrial processes.

Benefit from

- ▶ a high level of expertise and many years of experience – tailored to you
- ▶ globally available products and a reliable service network
- ▶ our extensive product portfolio with many variations and styles

Choose SMC as a strong partner for your production – today and in the future.

Our exhibition highlights

Stay cool – save space

Thermo-controllers are available in standard, basic and high-performance type and can be perfectly adjusted to your application's requirements.

Key features:

- ▶ high capacity at minimal weight
- ▶ space saving and light
- ▶ globally available
- ▶ global service network

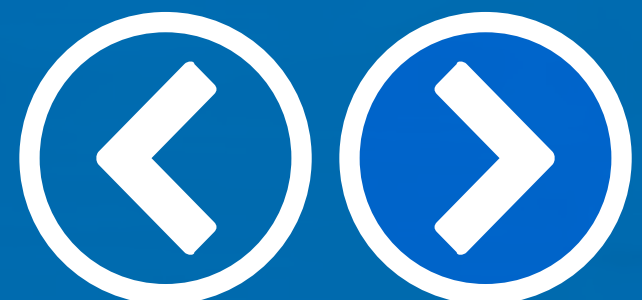

Choose from perfectly tuned products for your individual laser applications.

High-performance varied product portfolio ...

... also beyond the process chain.

Trend topics

Into the future with SMC

Smart production

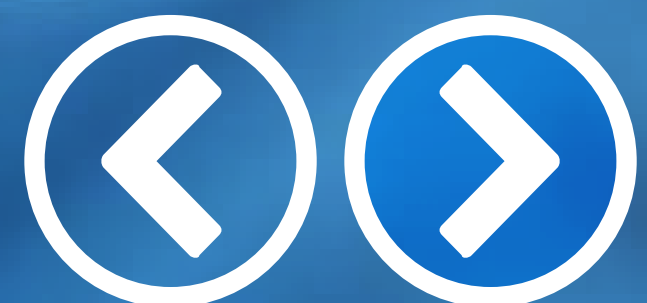

Benefit from future-proof automation solutions. This ensures that your production focuses on greater flexibility and efficiency. Improve the productivity of your plant, reduce costs and dynamically shape the production process. IO-Link products from SMC support you with this.

Energy efficiency

Sustainability and energy efficiency are among the top subjects that we address with innovative ideas and concepts. We offer cutting-edge technologies and cost-effective products for efficient energy consumption in automation.

**Let us shape future-proof productivity
and progress together.**

SMC globally

Your SMC products – globally available

Particularly in uncertain times, product availability is key. SMC is your partner, supplying products globally with a comprehensive service network.

12,000 product groups

5 Technical centres

700,000 products

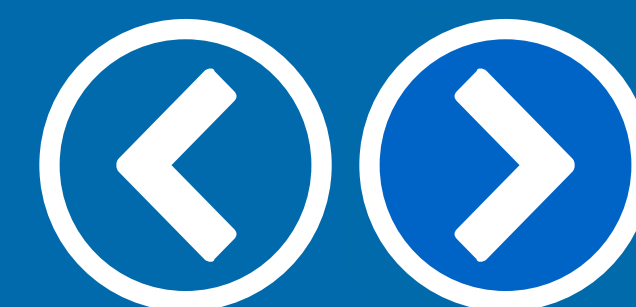

34 Production centres worldwide

20,853 employees

83 locations

8,700 Sales Engineers

Benefit from more flexibility through our global presence and networks.

Meet us

We are very much looking forward to meeting you in person.

WHEN: 26 – 29 April 2022

WHERE: Munich Exhibition Centre, Hall A5,
Booth 259
